CGTI Community Action Team Update September 27, 2016

Streator Township High School, a CGTI Community Action Team and Operation Snowball Chapter, successfully held their first event from their action plan. This team hosted a Fun Run this past Saturday with the goal of 50 runners — they surpassed that goal and ended up having 165! This was a great community event to not only raise funds for a speaker next month but also to increase community awareness and spread their message and purpose of their action plan to community members.

Check out how the event went [here!](#)
