

CGTI Facts: The Top Four Things School Faculty Need To Know!

**How do you know
if CGTI is right for
your students?**

Great question!

We're here to give you those answers and make sure your community has access to all the opportunities that CGTI has to offer! Below you'll find answers to the top four questions we get from interested school faculty.

Benefits

Students who attend CGTI will leave with plans to better your school over the next 12 months! Projects are student-led and adult-supported, created with SMART goals in mind, and prioritize practicality, efficiency, and cultural competency to have a long-lasting impact.

Student Success

Students take part in curriculum that focuses on leadership development, effective communication, substance use prevention and mental health awareness, future readiness and more through an SEL, trauma-informed format. Students will also receive 22 service/volunteer hours for attending.

Funding

CGTI offers scholarships to individual students and Teams new to the event! Scholarships cover room and board, meals for the duration of the conference, event materials and a theme shirt. It's our goal that funding is never an obstacle for our attendees!

Safety

CGTI is led by trained Volunteers who are tasked with not only fostering positive peer collaboration, but also supporting a safe and healthy environment for learning. We encourage Teams to send a faculty member that can support Action Plans during the school year, but students are welcome to attend individually!
