

Our Youth Love CGTI ... You Will Too!

Hear directly from the students we serve why attending CGTI can be a life-changing experience for middle school and high school leaders in your community.

"I loved that at CGTI I get to put myself out there and meet so many amazing new people. CGTI makes me feel safe and comfortable, the environment is one I will strive to replicate at school, home and all throughout my community."

"I am so honored for this to have been my first CGTI. It was amazing meeting so many awesome people from many corners of the WORLD. I will certainly be returning!"

"I loved the way CGTI ignited me towards completing my goals and provided a wide array of perspectives from the participants to staff. These perspectives made my social and mental intelligence and knowledge increase in ways that is essential to achieving community based goals."

"CGTI has greatly helped me become a more open person and be less afraid to show my personality to new people."

"From the first day of meeting so many genuine and loving people to the workshops, keynotes, discussion groups, action team meetings, free time, the dance, there was not a dull moment."

"The positive environment was my favorite. At the beginning of the week I was so shy and nervous, but now at the last day, I'm so social and not shy at all. All of the workshops and speakers motivated me and then going into my discussion group, it was amazing!"

"I enjoyed meeting new people and learning about different cultures and cities. I'm from a very small town so hearing about life outside of my little world is really fascinating, and makes me appreciate the diversity of this conference."

"I liked the amount of people I could relate to and the amount of people who just wanted to talk. It was so fun to just talk to people and understand their life. Truly was an amazing experience and I wished this could last longer than a few days."
